President, Clay County Family Policy Forum PAC

I recently received your group's Candidate Survey that was sent by registered mail. I was raised a Christian with strong family values and have always served my church and community as a mentor of many youth and adults in my life.

As a special interest group, I recognize your right to submit surveys to political candidates as you deem necessary, to ask specific questions to promote your group's philosophy, or to promote candidates you believe to have similar views. That is one of the beauties of this great country we live in and what our military has fought for. It is my opinion and the opinion of many in Clay County that several of the questions you have submitted in this survey:

- 1. Has absolutely nothing to do with the office for which they are running.**
- 2. The content and wording already has a predetermined bias towards your group's beliefs, philosophy, and promotes the candidates you have already chosen to support.**
- 3. It is not a reliable source for qualifications of the best candidates for political office in Clay County.**

I respectfully decline to participate in the Clay County Family Policy Forum for the reasons I have listed above.

Regards,
